HEADTEACHER - CORINA FOSTER

At The Valley School, we are all learning all of the time. Home-home is our way of valuing and encouraging our students' learning when they are at home.

In KS4 pupils have the opportunity to complete one challenge per Core Subject a week that will be tailored to her/his ability. This is set by the teachers of Maths English and Science and recorded in this booklet.

In addition pupils can complete many different challenges and tasks listed in the KS 4 Additional Home-learning Challenges sheet. Feel free to change the tasks and add your own as you go. This booklet and the additional sheets should be brought into school every day.

Thank you
