Maths 6

Count, read and write numbers up to 100000
Order and compare numbers up to 100000
Solves addition and subtraction problems using the inverse to check answers
Multiply numbers with one decimal place by whole numbers
Use written division methods where the answer has one decimal places
Interprets the remainder in division as whole number remainders, fractions, or by rounding as appropriate for the context
Round any number up to 1000000 to the nearest 10, 100, 1000, 10000, and 100000
Recognise and continue sequences that involve decimals
Recognise mixed numbers and improper fractions and can convert from one form to another
Recall and use equivalences between simple fractions, decimals and percentages
Use all four operations to solve problems involving money
Read and interpret timetables
Use a suitable instrument to take and record measures to the nearest labelled or unlabelled division
Use and compare measures of length, capacity, weight and temperature using imperial units
Draw 2D shapes using given dimensions and angles
Read and plot coordinates in all four quadrants
Interpret information, to make comparisons and record changes, from different formats, including bar charts and simple line graphs
Use given mathematical information, including numbers, symbols, simple diagrams and charts to answer questions
Recognise, understand and use simple mathematical terms appropriate to Entry Level 3
Present results with appropriate and reasoned explanation using numbers, measures, simple diagrams, charts and symbols appropriate to Entry Level 3.
