The Valley School

Accessibility Plan 2024

Equal opportunities lie at the heart of all that we do at The Valley School. We are committed to ensuring that every member of the school community, whatever their position, race, gender, disability or religion is given the samechance as any other to access the services and support of the school.

Approved by: Mr. David Pearce and Dr. Rona Tutt

Date: 9 January 2024

Schools need to carry out accessibility planning for all Students with a disability. These are the same duties as previously existed under the Disability Discrimination Act (DDA) and which have been replicated in the Equality Act 2010:

- To promote equality of opportunity for disabled people: Students, staff, parents, carers and other people who use the school ormay wish to; and
- To prepare and publish a Disability Equality Scheme to show how they will meet these duties.

Definition of Disability

You are defined as disabled under the Equality Act 2010 if you have a physical or mental impairment that has a 'substantial' and 'long term' negative effect on your ability to carry out normal daily activities.

At The Valley School we are committed to providing a fully accessible environment which values and includes Students, staff, parents, carers and visitors regardless of their education, physical, sensory, social, spiritual, emotional and cultural needs. We are committed to challenging negative attitudes about disability and accessibility and to a developing a culture of awareness, tolerance and inclusion.

The Valley School plans, over time, to increase the accessibility of provision for all our Students, staff and visitors to the school. The Accessibility Plan will contain relevant actions to:

- Increase the extent to which Students with disabilities can participate in the *curriculum*. This covers teaching and learning and the wider curriculum of the school such as participation in clubs, sporting and cultural activities or school trips.
- Improve our *physical environment* to enable disabled Students to take better advantage of the education, benefits, facilities and services provided. This includes improvements and adaptations to the physical environment of the school and physical aids to access education. This will be facilitated through the move to our new purpose-built building, where we will include attention to colour schemes, lighting and sound so that the physical environment reflects the sensory needs of our students.
- Improve the availability of accessible *information* for students, staff, parents, carers and visitors. This includes the use of Communicate in Print, enlarged texts and a facility on our school website to enable it to be accessible in a variety of languages. We make ourselves aware of local services, including those provided through the Local Authority, for providing information in alternative formats when required or requested.

The Valley School

Ongoing Accessibility Planning...

Our Aims:

- To increase the extent to which Students with disabilities can participate in the school curriculum
- To improve the physical environment of the school in order to increase the extent to which Students with disabilities are able to take advantage of education and associated services provided by the school and which allow staff, parents, carers and visitors better access both within the current building and planning for what needs to be in place in the new building.
- To improve the delivery of written information to students, staff, parents, carers and visitors with disabilities
